

SALMING.
FLOORBALL 2020/2021
WORKBOOK

SALMING.
no nonsense.

BACK TO THE ROOTS...

For Börje Salming the ancient powers of the Swedish Laplandic culture and mysticism are the essence of who he is and always will be – the backbone of his heart, mind and soul. Within this scenery his heritage lies.

Our mission

NO NONSENSE ATTITUDE UNRIVALED FEEL

HISTORY

Our values - reflects us

**OUR VALUES REFLECT WHAT IS TRULY IMPORTANT TO US AS A BRAND.
THEY GUIDE THE WAY WE WORK WITH OUR BUSINESS PARTNERS.
WITHIN OUR COMMUNITIES AND WITH EACH OTHER.**

PASSION

We strive to design state-of-the-art products engineered to help athletes push their limits. We're risk-takers who never quit. The athletes we serve want to take their game to the next level, and at Salming we provide the tools to get you there.

ACCOUNTABILITY

Swedish design which is at the cutting edge in function, technology and appearance. Carefully developed, quality-assured products. And a team with a passion to help you progress and perform.

WILLPOWER

With one of the greatest Ice Hockey players ever lived as founder of the brand with a mantra of "willpower" and "taking one for the team". Our whole structure how we do things is with raw Willpower. Success does not come easy.

COURAGE

We are the Swedish challenger with a vision to help athletes progress and perform. Taking on the biggest sport brands in the world and making them sweat enough to know that we're here to stay.

Marketing products

WE HAVE A LOT OF STATE-OF-THE-ART PRODUCTS AND WANT TO SHOWCASE EVERY SINGLE ONE OF THEM. BUT EACH YEAR WE NEED TO SELECT SOME PRODUCTS THAT WILL STAND OUT FROM THE REST IN TERMS OF MARKETING AND SUPPORT. HERE 'S HOW WE 'RE THINKING.

FOCUS PRODUCT FOCUS PRODUCT FOCUS PRODUCT

*Our **Focus product** is that one product that belongs in every store. This can be a newcomer, a new take on our best seller or just a product that we believe stand out enough to compete against the best of the best.*

ELITE PRODUCT ELITE PRODUCT ELITE PRODUCT

***Elite products** is our award winning products with great design, maximum tech and overall a really PR friendly product.*

POWER PRODUCT POWER PRODUCT POWER PRODUCT

***Power product** will kick life into the range, it can be a pop color that stands out, a collab with a great artist or just a model that we believe can spice things up.*

STICKS. BLADES. GRIPS.

SALMING SLIDE 5

Slide 5

The 6th generation of the worlds first Floorball goalie shoe! The upper of the shoe has a special padding construction that is reinforced with an extremely durable polyester fabric that provides excellent sliding characteristics no matter what indoor surface you play on. The outsole is divided into two units to maximise the flexibility and the lacing construction is assymetrical to interfere as little as possible with the flex area. On top of the lacing construction is an exterior tongue to protect and keep the laces in place during the game.

Features + Benefits

- + Extremely durable polyester fabric that provides excellent sliding characteristics
- + Maximized flexibility with a divided outsole
- + Removable EVA insole
- + Traditional lace construction assymetrical to interfere as little as possible with the flex area
- + Molded TPU heel counter for added stability

SALMING VIPER 5

FOCUS PRODUCT FOCUS PRODUCT FOCUS PRODUCT

Viper 5

Be far ahead of your opponents. Be close to the floor, fast and flexible with light feet with excellent stability, giving an unbeatable contact for lightning-fast movement on the court. The upper consists of ViperSKIN™, a three-layer construction with a soft mesh closest to the foot, microfiber-reinforced areas and then the outermost – a thin, durable TPU film that holds the entire structure together. The combination of these three layers gives a nice and snug fit but also keeps the foot in place properly.

Features + Benefits

- + Super sticky grip with Salming's hexagon pattern.
- + Designed with Salming's TGS 62/75 guide system, to stimulate the foot's natural movements.
- + RunLite2™ midsole for a responsive take-off
- + LMS Torsion unit together with LMS 11° gives more stability to prevent twisting your ankles.
- + Removable EVA insole
- + RollBar™ gives you better grip in take-off position
- + Traditional lace construction
- + Molded TPU heel counter for added stability

Details

Product description:

A composite shaft made in flex 32, powered with Salming's Aero blade made in durable Endurance™ material.

Colour: Blue/Dark Blue
Flex: 32
Shaft lengths: 82, 87, 96 cm
Blade: Aero
Grip design: Salming base grip
Total: 1pcs/or box of 12 pcs left hand or right

SALMING TECH

HexaGrip™

A new very durable lightweight rubber compound - HXT20 - that features Salming's HexaGrip™ pattern designed for the best possible grip on all indoor surfaces.

Cushioning Foam

Heel cushioning foam - C35, positioned at the heel centre, gives you 70% better shock absorption than a regular EVA midsole compound.

LMS+ and LMS+ DUAL

Fast lateral stops expose the foot to the risk to roll over outwards, causing injuries. LMS+ (Lateral Movement Stabilizer Plus) is a unique design with a positive angle of 11° and 8° that prevents the foot from rolling over outwards.

Recoil ERF

The material in the midsole is a newly developed compound named RECOIL ERF which is a super lightweight cushioning compound that releases a higher rebound energy effect. The Recoil ERF – as in Recoil Reduction – is a cushioning compound featured in the heel impact zone designed to reduce impact forces and increase comfort when lunging.

Performance EVA

Inside the raw rubber outer sole shell there's a hidden EVA performance midsole.

RunLite2™

The RunLite2™ midsole features a special High Abrasion Injection EVA, designed to create a nice feel for the ground. The midsole is light and responds to the surface in a flexible way from the very first step.

Ergo Heelcup™

To stabilize and fixate the heel, which is key to providing a great fit and comfort, we have developed a new anatomical Ergo Heelcup™ that is slightly longer than the average heel cup. It is specifically designed to add minimal weight to your shoes.

ExoSkeleton™

The ExoSkeleton™ design keeps the foot in place and stabilizes the foot in lateral movements relieving pressure at the MTP joints (Metatarsophalangeal joints). When we refer to the Fully Integrated ExoSkeleton™ it is part of the lacing construction - a solid fully integrated construction that is part of a Wrap Around Design concept created to provide that snug comfortable first feel with a great fit and breathability.

SpeedLite™

The SpeedLite™ midsole is a lightweight performance EVA compound with long lasting cushioning qualities.

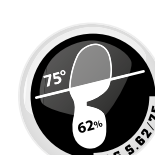

LMS™

Lateral Movement Stabilizer - an especially designed light weight integrated dual torsion unit that supports the foot during fast and irregular lateral movements.

RollBar™

An increased radius on the inner side of the outer sole, facilitates rolling the foot inwards and toe push off. Reaching for a distant ball is made easier with the Roll-Bar™ technology.

T.G.S 62/75™

The distance from heel to the ball of foot (62% of the shoe) has been designed with extra stability, which ends in the so-called "ballet" line, a 75° angle. In front of the 75° line, we have equipped the shoe with greater flexibility to stimulate the foot's natural movements. The TGS 62/75° feature assures that the shoe bends in exactly the right places, stimulating the foot's natural lateral and forward movements.

XR110™

In order to help you control all of this cornering performance, our XR110™ outer sole has an extra sticky developed compound!

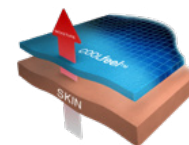

SoftFOAM™

SoftFOAM™

A cushioning compound featured in the heel impact zone designed to reduce impact forces. The SoftFOAM™ heel insert area has 70% better shock absorbing properties than standard EVA midsole. The RECOIL™ and SoftFOAM™ combined - creates a sandwich construction made to maximize your performance.

Coolfeel™

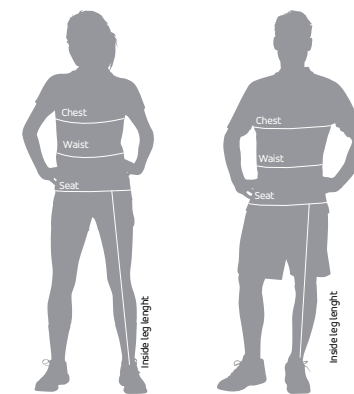

A functional concept designed fully for transporting moisture from your skin to the fabrics surface where it will evaporate rapidly. Keeps you comfortable during high performance activities.
